

## IT IS A LAW NOW.

The President Signs the Anti-Prize Fighting Bill.

## BECOMES OPERATIVE AT ONCE

And Gives the Governor of New Mexico His Needed "Amunition"—Stuart Said to be Backed by the KinetoScope People, Linden Groves Coming to Wheeling, Last Night's Bowling Games—New Orleans Races—Other News of Sport.

WASHINGTON, D. C., Feb. 7.—By the signature of the anti-prize fight bill to-day the President has placed upon the governor of New Mexico the responsibility of the prevention of the prize fighting in that territory. The governor has been informed of the signature of the act so that he is fully aware that it is the law of the land from this moment. The federal authorities, however, are disposed to do everything in their power to assist in the execution of the law if the governor should find it beyond the unaided ability of the territorial officers to prevent the fight in the territory.

Proper instructions will be sent by the war department to General Wheat, the department commander at Denver, to promptly supply all of the force required under the request of the proper authorities and altogether the national government is prepared to make it very unpleasant and dangerous for any person who participates in a prize fight in any of the federal territories, or even gives aid and comfort to any would-be fighters by assembling at any point to witness a fight.

The emergency due to the prospective prize fighting between the friends of the bill to move with a celerity extraordinary in Congressional procedure, and now that formalities only remain, pains will be taken to insure the speedy passage of the act. The Senate and House yesterday took precautionary steps in the way of preparation of the bill for signature by the two presiding officers of the House and Senate yesterday so that all remaining to be done was for the customary enrolling committee to make announcement and then secure the signatures needed before the bill was sent to the President.

Speaker Reed's sign manual was affixed to the bill early in the afternoon and it then was rushed to the white house. The President's attention was called to it at once. The temper of the officers of the government is so well known that, although they decline to be quoted on such a matter at present, it can be stated positively no effort will be spared to prevent the fight. The Catron bill makes prize fighting a felony with imprisonment for from one to five years and should those connected with the fight have the temerity to bring it about in violation of law they will find themselves rigorously prosecuted as a warning to any persons who may design following in their footsteps.

The question of most general interest in distant lands is now, is whether Dan Stuart is going to be able to "pull off" that prize fight near El Paso next week. Recent legislation in Congress and expressions from the authorities in Mexico, Texas and New Mexico, have dampened the ardor of the easterners who intended going to El Paso, so that unless there is a definite expression of ability to bring off the contest, the outside attendance will be slim.

It is believed that Stuart's arrangements with the KinetoScope Company are such as to guarantee him against any possible loss personally. This company, it is said, pays the pursa and expenses of the fighters, and arranged for a division of the profits with Stuart. The KinetoScope Company wants the fights for its machines, and is prepared to spend so much money to get them, whether they are brought off in private or not. It is said that the publicists understand that they must fight in private if conditions confront them which makes such a proceeding necessary.

That the fighters are in accord with Stuart may be judged from the following expressions a reporter obtained from them:

John Quinn, the manager of Peter Martin, said: "I am sorry, of course, that this has happened, but I am still confident that the fight will take place. Stuart isn't flustered in the least. He was as confident as ever when I saw him this evening, although he felt that the news would greatly affect attendance and restrain the number of people to fight at any time or place that Fitzsimmons may agree to. I think that I can safely say that the fight will take place according to schedule."

Martin Julian said: "It's too bad. This will affect attendance no doubt. We will fight, of course, yet at the same time we don't want to break any laws."

"Bob" Fitzsimmons said: "All the same to me whether there is one man or ten thousand. I am ready to fight at any point where the law won't interfere with us. I think we will fight."

"Bat" Masterson shouted: "What is the country coming to? It is run by a lot of old madmen, whose ideas of muscle and physical training are acquired from stuffed animals and brandy and soda and poker in Washington. The United States is not worth powder and lead to blow a hole through it any more. Blow me if I don't leave it for good."

Tom O'Rourke said: "I am willing to abide by whatever equitable arrangement Stuart may make for the Dixon-Marshall fight. I shall be guided freely by circumstances, but I think Stuart knows what he is about."

Joe Vendig said: "Do you think the newspapers would mind being charged admission to the fights?"

"Buck" Connelly's opinion was: "Well, I don't see any reason to doubt that the big fight will take place. As for the others, I don't know. I am still ready to bet on money on Maher."

Hugh Kane said: "Just follow Dan Stuart. He will pull this thing through all right, no matter how many or how few are there."

Everhardt, Dixon, Walcott, Barry, "Bright Eyes" and the others express themselves as being willing to abide by the decision of their respective managers.

## TOLEDO CYCLERS.

A Delegation Going to the National Assembly to be Here.

This evening a large delegation of Toledo cyclists, en route to the Baltimore national assembly of the League of American Wheelmen, will arrive in the city from Toledo via the Wheeling & Lake Erie. They have a special car and are going to Baltimore in style to have Toledo selected as the place for the '96 annual meet of the league. In the party will be the following: Hon. James M. Brown, who will present Toledo's claims to the national assembly; James M. Austin, Jr., Vivian T. Elliot, Arthur E. Chase, Robert H. Adams, H. E. Richards, Frank M. Heller, H. H. Cushing, Leander Fisher, W. C. Brewer, George H. Fisher, Thomas H. Deardorff, J. E. Gunkel, James S. Martin, Frank W. Thomas, George W. Stevens, and S. L. Oberster, the latter of Toledo. At the last moment one or two more newspaper men may join the aggregation. They go well supplied with the necessary accessories and argument, and expect to put up a stiff fight against their competitor, Louisville.

Wheeling the speaker, will be followed east on the Erie and Ohio road, arriving at Baltimore at 7:30 to-morrow.

The announcement that the western wheelmen are likely to swing their

votes at the national assembly meeting of the L. A. W. for the re-election of A. C. Willson has made the latter's support rather confident of defeating Sterling Elliott for the office. The fact that a third candidate has been suggested has given strength to the suspicion that Elliott's followers fear his connection with the official bulletin of the L. A. W. may result in bringing forth strong opposition to his candidacy, in which event they wish to be prepared to place another man against Willson. Both candidates feel confident of election, which indicates that a close vote will be cast. The strength of the New York division and a majority of votes from the Massachusetts division will go to Elliott. The delegates to the meeting will arrive at Baltimore to-morrow, when the representatives from the different states will exchange opinions and some deals will likely be arranged that will change the complexion of the entire election. Chief counsel C. H. Geiger, of this city, will represent West Virginia. The racing question cannot enter into the struggle for the presidency, as both candidates are pledged to support racing under the jurisdiction of league. W. W. Watt, of Louisville, has been asked to accept a position on both the Willson and Elliott tickets, but has declined.

## THE LINDEN GROVES.

The Bowling Champions of the East Sure to Come to Wheeling.

Col. E. M. Statler, of the Musée bowling alleys, has closed the contract with the Linden Grove bowling team, of Brooklyn, champions of the east, for their appearance at the Musée alleys on March 25 and 27 or March 27 and 28, the former dates being preferred. The data will be settled so soon as it is decided whether the visitors play in Buffalo. The effort to have Linden Groves appear in Pittsburgh has proved futile and the visitors will come to Wheeling direct from Rochester or Buffalo, N. Y. There will be seven ten-men team contests, several two-men matches, some individual matches and exhibition of fancy bowling at three performances, two evenings and one matinee. From Wheeling the champions will go to Cincinnati and Chicago.

## The Toledo Team.

TOLEDO, O., Feb. 7.—There is a general demand that "Bobby" Gilbe be cured for the captaincy of the Toledo. Martin Duke, the Minneapolis pitcher, will probably be signed, and Pollard and Gray, two young pitchers, will be signed. They have offers from other clubs, but are anxious to come to Toledo. A youngster named Carr is wanted by Grand Rapids and has been offered by Manager Torryson has already got him in tow, and he will doubtless play here. A big list of applicants has been mailed Mr. Torryson, and he will hustle a good team together.

## NEW ORLEANS RACES.

Willie Ham Relieved of Suspicion—The Betting on Jim Cornwall.

NEW ORLEANS, Feb. 7.—Sixty-sixth day Crescent City Jockey Club's winter meeting. Weather cloudy; track heavy. Willie Ham, who was recently suspended for an indefinite period, has been reinstated. ## Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many actual diseases are not due to a constipated condition, but simply to the fact that the pleasant family laxative, Syrup of Figs, promptly removes it. This is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co., only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with in any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Grapoville, Pa., on the Pennsylvania railroad, early this morning and instantly killed. The couple lived at Jeannette.

## PARKERSBURG NOTES.

A New Industry—Senator Camden Better. The Wetherell Assault Case. Special Dispatch to the Intelligencer.

PARKERSBURG, W. Va., Feb. 7.—Tom Kesselman closed a deal to-day for the Hebrank and Raph and Baker property on Ann street, paying \$45,000. He is from Butler, Pa., and will establish a large oil well manufacturing, employing fifty men at his start.

Dol Crippen, of Little Hocking, was killed by the cars while breaking on a Baltimore & Ohio Southwestern freight train. He was twenty-two and unmarried.

Senator Camden, who was taken ill at Wheeling while attending the Thompson funeral, is much better to-day. Nothing serious is expected.

Chief of Police Benson has procured a bail bond against James Sherman, the assassin of Lulu Wetherell, now in the Uniontown, Pa. jail, which positively fixes the crime upon him beyond a reasonable doubt. Sherman will be turned over to the Parkersburg authorities next week. Their scheme is to smuggle him quietly into the city, fearing an uprising of citizens. While the people here are greatly excited over the capture of the guilty man, yet it is believed that the law will be allowed to take its course.

## Cheated the Penitentiary.

MORGANTOWN, W. Va., Feb. 7.—William Thatcher probably cheated the penitentiary out of a term of years for a crime. He was indicted here for obtaining money under false pretenses, and while depositions were being taken in his case at Warren, Ohio, he committed suicide at his home there by taking poison.

## REVIEW OF TRADE.

R. G. Dun & Co.'s Weekly Review—Spend Effect of the Bond Sale.

NEW YORK, Feb. 7.—R. G. Dun & Co.'s weekly review of trade, which issues to-morrow, will say:

The wonderful success of the popular loan alters the face of events. The influence of this event upon all manufacturing and all trade cannot be lightly estimated. It strips the silver agitation of all its power to hurt. It puts the treasury on a safe basis for the time, whereas Congress does nothing. It is not, it notifies foreign nations that the United States has power as well as purpose. It unlocks millions of gold which have been gathered in preparation, brings directly several millions of gold from Europe and stimulates the anxiety of foreign investors to obtain American securities.

With such a revolution in business suddenly affected, the customary records of the past week and month are of less value than usual. But there have been signs of improvement in the iron manufacture, although the average of prices is nearly one per cent lower this week. For the other week, the year against total deliveries in 1895 of 1,000,000 tons, and orders for wire nails are stimulated by a decision to advance the price again March 1. There is also a more active demand for plates and sheets.

Speculation in coal and coke iron at Chicago and prevents advance at the east, while sales of last year's speculators in the Pittsburgh region still depress Bessemer. The ore pool is expected to fix the price for the year at \$4 or possibly \$4.50 and the coke pool still reduces the output. Speculation has raised copper to 10 1/2c with sales of 6,000,000 pounds, and tin to 13 1/2c and lead to \$3 1/2, with large exports of Mexican.

Sales of wool have been 4,568,200 pounds, against 5,192,150 last year and 6,666,715 in 1893, and with reported reduction in clay orest and mixtures, but the orders for the other woolen goods are still unusually delayed. It is also stated that cancellations in carpets have been unusually numerous since January 1.

Speculation in wheat has again lifted prices, although western receipts have been 2,800,000 bushels for the week, against 722,971 bushels last year, and for the year thus far 15,969,655 bushels against 6,039,933 bushels last year. Atlantic exports have been increasing, though not in the same proportion. The speculative market has been largely injured by rumors of injury to the corn crop and by foreign advances and prices advanced 3 1/2c for cash and 2 1/2c for May. Corn has been comparatively steady.

Failures for the week have been 323 in the United States, against 281 last year, and 63 in Canada, against 58 last year.
